Southfield, MI 48034
Steve Gedert
(248) 352-8310

Project Cost

\$500,000

Date Completed

July 1991

Delivery Method

Construction Management

The Lutheran Church of the Redeemer, located in the heart of downtown Birmingham, is modeled after the Martha-Mary Chapel in Greenfield Village. The parish contracted JM Olson Corporation to handle its ambitious plans for their renovation project on a limited budget.

Extensive preconstruction services were required to enable the parish to comfortably move forward with their extensive renovation plans. In addition to providing the leadership that enabled the design process to progress forward as planned, JM Olson Corporation facilitated many meetings with the church congregation to address scheduling and budget issues. Throughout the entire project, JM Olson Corporation provided the necessary information to ensure that all parties were comfortable with the project's progress.

The scope of the renovation included upgrades to the electrical, mechanical, and architectural systems in the worship, office, and classroom areas. The entire project was conducted while the church remained fully operational and at full capacity for all events and services.
