Delivery Method

General Contract

JM Olson Corporation provided fast-track construction of for one the nation's largest retailers by constructing a few of the brand new Sam's Club locations in the Metro Detroit area. Building upon an established working relationship with the client, JM Olson Corporation once again managed to meet the construction challenges head on for these projects and delivered the finished projects on time for the scheduled Grand Openings.

Sam's Club

Madison Heights

\$6,100,000, 136,682 SF bulk grocery store that required large refrigeration and deep freezer units for the various selection of items offered by Sam's Club. This location also offers its customers a pharmacy, a vision center, a garden center, and an auto center. The project followed a rigorous schedule and involved various site and design changes through the construction process.

Sam's Club

Grand Blanc, Michigan

\$5,400,000, 137,288 SF bulk grocery store that required large refrigeration units and deep freezers for the various selection of items offered by Sam's Club. This project required the project team to be flexible as numerous design changes were weaved into the construction process. The store was successfully opened on schedule in January 2006.

SAM'S CLUB MICHIGAN

Sam's Club Dearborn, Michigan

A bulk grocery store that required large refrigeration and deep freezer units for the various selection of items offered by Sam's Club. This project was located within the Fairlane North Retail Center which was also constructed by JM Olson Corporation.
