Program

General Contractor

Construction Value

\$625,000

Dates

Start: 9/6/05
End: 12/30/05

Size

4,000 sq. ft.

Overview

This project involved the expansion of an existing medical facility to accommodate additional state accredited procedure rooms, while maintaining the existing suite's operations.

Challenges

Construction performed during facility regular operating hours requiring minimal disruptions to daily operations.

Solutions

Continual communication with Owners and users and time detailed schedules allowed successful coordination of activities with minimal disruptions to operations and discomfort to Owner clients.
