**Project Size**  
18 Schools

**Project Cost**  
\$6,475,000

**Date Completed**  
August 2006

**Delivery Method**  
Construction Management

Covering 90 square miles, School District U-46 serves portions of 11 different communities in the northwest suburbs of Chicago in Cook, DuPage, and Kane counties. The district ranks as the second largest in the state of Illinois with 40 elementary schools, eight middle schools, and five high school facilities.

JM Olson Corporation provided Construction Management services for miscellaneous renovation projects, primarily life safety renovations, at 18 different locations throughout the school district. This project required close coordination and communication with the four different designers. The projects were on a condensed schedule in order to be completed during the summer recess months.
