Suite 200
Southfield, MI 48034
248.262.1500

Size

56,000 sf

Cost

\$5,800,000

A milestone relationship was created for this project. JM Olson embraced the UAW as a full partner to provide construction services for a new 56,000 sf automotive service center for Ford Motor Company's executive vehicles. This 64-bay pre-cast facility houses 50-car lifts, automotive repair equipment, two car washes and has a large parking area for storing automobiles.
