734.429.5130

Size

98,860 sf

Cost

\$3,600,000

Date Completed

April, 1998

JM Olson provided design/build services for the 98,860 sf renovation of an existing warehouse into a training center to be used by Ford Motor Land personnel. This precast structure with reinforced steel houses offices, classrooms, conference areas, cafeteria, food service, and an open shop area. Several classrooms utilize moveable partitions in order to accommodate larger classrooms settings upon demand.

Like most Ford training centers, this facility is designed for global video conferencing and has a card-access security system.

"...It has been a pleasure working with the entire Olson team. Complete respect and dedication to the job has been demonstrated on all occasions, as well as making the task at hand enjoyable to work on. Olson has a very strong team attitude..."

Jim Doblese, Facilities Analyst
Corporate Facilities Planning
Ford Motor Land Services Corporation
