Size

10,000 sf

Cost

\$1,100,000

Date Completed

1993

JM Olson provided construction services for the new one-story, 10,000 sf preschool addition. The addition houses eight classrooms, a gymnasium, playroom, activity room, cafeteria and support facilities.

Extensive site work and matching the new brick to the original 1923 brick were the greatest project challenges.
