**Size**

7-stories, 150,000 sf  
and a new addition

**Cost**

\$6,000,000

**Date Completed**

1990

JM Olson provided general construction services for the renovation of Macomb County's medium and maximum-security jail areas.

Renovations included upgrades to the existing heating, plumbing, electrical systems; installation of security bars in all ductwork, a new penthouse addition to accommodate new mechanical equipment; new exterior stairwells; and an electrical room addition.

In the maximum security and D-block areas JM Olson installed new toilets, sinks and showers. Administrative, kitchen and rehabilitative areas received various upgrades ranging from new classrooms, new toilet fixtures, and upgrades to the HVAC system. A totally new gun range and employee locker room was constructed at the basement level.

"Your firm has an excellence technical knowledge of the requirements for constructing and renovating jail facilities. The quality of your craftsmanship is excellent and your installation of our security system went well...Most importantly, your firm delivered this project to us on schedule and on budget with minor disruptions to our jail operations and daily business affairs."

Sheriff William H. Hackel  
Macomb County Sheriff
