Troy, MI 48098  
Kip Serota  
248.267.5300

**Size**

138,000 sf

**Cost**

\$11,000,000

**Date Completed**

September, 1994

JM Olson Corporation provided general construction services for the first phase of the County Courthouse expansion Master Plan that was completed in 1994. The facility houses its three county libraries: Law Library, Reference Library and Library for the Blind and Physically Handicapped. The West Wing also houses offices for the County Prosecutor.

The plan calls for the new building to be attached to the existing Courthouse Complex due to close relationship with Courthouse functions. The new structure provides balance with the existing buildings and with the use of similar material, the addition enhances the total complex.

"We thoroughly appreciated the cooperation and professionalism your company displayed on the West Wing Addition...Your proactive efforts developed increased integrity, trust, flexibility and responsiveness among all parties. When issues arose, everyone worked on mutually agreeable solutions..."

David W. Ross, Director  
Paul Hunter, Manager Facilities Engineering  
Gregg Wm. Doty, Facilities Engineer  
Oakland County, Michigan
