Southfield, MI 48034
Gene Carroll
248.352.8310

Size

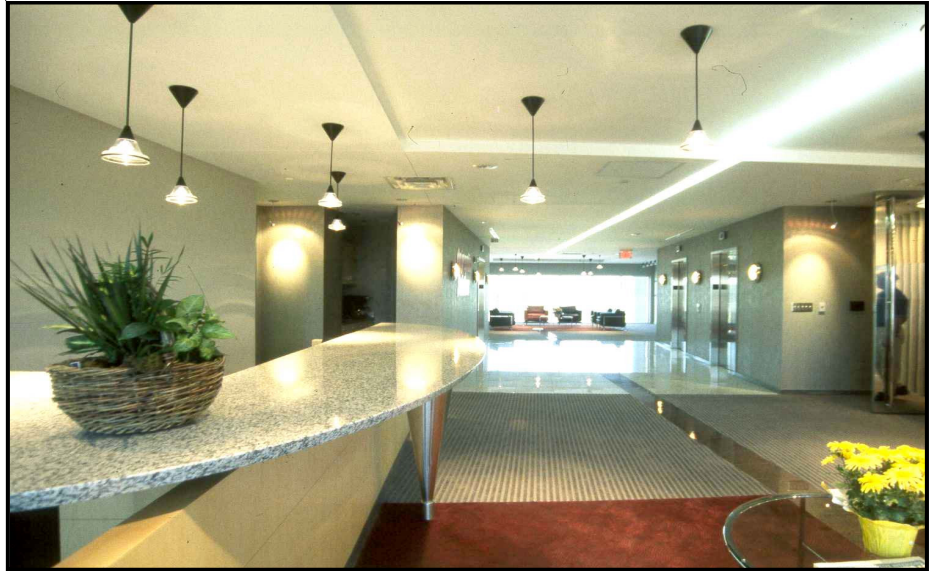

40,000 sf

Cost

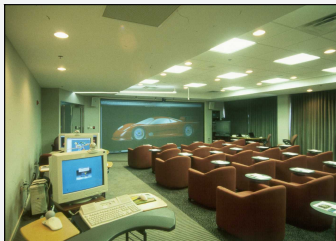

\$1,200,000

Date Completed

December, 1998

Fast-tracked construction services by JM Olson Corporation placed Unigraphics Solutions in their 40,000 sf office / sales space within weeks of design commencement. Located on two floors, the space includes offices, cubicles, training conference rooms and lounge areas. The most dramatic space is the 2,000 sf, 30-seat "visualization area" where potential customer will view product information on a large 3-D video screen - glass projection screen.

"...The JM Olson team was given a very ambitious schedule...from selecting the subs, ordering the materials, supervising the workers, and dealing with a constantly changing construction plan, they operated in a very professional manner. In many instances their advice improved the final result and kept the project on schedule. Our office moved in on schedule and the Innovation Center has been a huge success for our corporation..."

Dennis B. King, Business Manager
Unigraphics Solution
